

Ready, set, go!

Always ahead with our low-cost right-angle gear units

The Dynabox gear unit series impresses with its sophisticated duplex worm gearing, which enables precise control of the torsional backlash. The load-bearing tooth is utilized to almost 90% of its capacity, resulting in compact gear unit sizes with high transmissible torques.

More technical advantages:

- Highest torque density at compact space
- In three accuracy classes: Expert 1arcmin, Medium 5arcmin, Basic 10arcmin
- Eight sizes: Heights from 25 to 110
- Input speeds up to 6000U/min
- Conical roller bearings accomplish high feasible radial forces
- One piece housing: High torsional stiffness and low weight
- Easy motor mounting
- Short delivery times
