## Efficient precision gearboxes provide endless possibilities

### Find the right gearbox for every requirement

Planetary gearboxes from NIDEC are the result of decades of experience. Modern production systems, technical expertise and exceptionally high production standards guarantee the best quality.

A high torque density, low circumferential backlash and a high efficiency factor are all achieved thanks to the high precision of the helical gearing and the optimum meshing conditions.

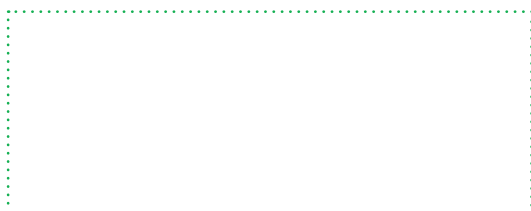

- Maximum power density and efficiency.
- Perfection in all process steps offers the highest precision with unbeatable value for money.
- 2D and 3D drawings available online at any time.
- Guaranteed quick delivery times.
- Worldwide technical support.

**TIP:** With the **Nidec Selection Tool** you can choose a planetary gearbox for your application:
